

Park Heights Saints ***Community Center Building Project***

Dear Friends,

Over 25 years ago this house was a house of prayer. There was a pantry to feed the community, prayer services, outreach work, and Bible studies where the community met God. This is the house where, like many others, I was disciplined and came to know the Lord.

Although this house has been a place where many lives have been changed, it has fallen into disrepair over the years. If the pastor who started the house all those years ago was alive today, they would have wanted to keep it as a place of ministry. They would have wanted this home to continue to be a beacon of light, where hope could be found. Because if you hope less, you find hopelessness. **We can make this a great beacon of light in a dark place again; that's how lives are changed!**

I had a dream where God showed me how this house will be used. It's legacy will continue as a landmark for the community here in Park Heights. There will be a full pantry to feed the community and a computer lab for kids to do their homework. There will be a classroom where parents will be empowered to get their GEDs and have the resources to find jobs. It will be a safe place for people to find encouragement, nurture and care, prayer, and God's love. Where kids will come to get off the streets and talk about their differences and their struggles. **Over 270 kids and 45 coaches**, we already work with, will have a place to meet and do more ministry, right next to the field. The big trophy is when they realize that God loves them and has a plan for their lives. My plan is always to help them meet the Real Champion.

We just need the chance to shine His light. God doesn't give you something great that you can do without Him. I can't do it alone, I need an army. **You may never get to know these people, but God is the one you are helping serve.** It is the little things that make a big change in our lives. You may never know what kind of impact you will have by helping, but God does, and He is going to use the Park Heights Saints Community Center to create those life changing experiences.

People will find hope here. Hope is that with God's help you can do anything but fail.

Thank you,
Brother Garrick Williams
